Kod EAN	<b>9919999907703</b>

### Opis produktu

#### **Pędzel Citadel STC M Dry Brush**

The technique known as drybrushing is a fantastic way to add detail to raised areas of your miniature, and the best results come from using a brush with straight, stiff bristles. That's why we've designed our M Dry brushes to have a flat profile and just the right surface area to suit models of all shapes and sizes

As a Citadel STC brush, the bristles have been made out of the finest 100% synthetic fibres Games Workshop have ever produced, helping to maintain the ideal brush shape and prevent curling at the tip. This brush has been carefully designed to add quick highlights to models of all sizes. It's an excellent companion to regular Citadel brushes, designed to work perfectly with the Citadel Colour paint range.
